A Short Introduction in the Memoirs of the Romanian Imprisonment

Short literature, the diaries and the memories of those who suffered during the popular democracy, but also the numerous public articles and debates after 1989 made us familiar, at least as witnesses, with the idea of prison and with the prison reality. The prison, which influenced the destiny of so many persons (from political personalities or intellectuals of some notoriety, to common individuals), becomes not only a natural component of every day life, but also a valuable element of it. Thus, paradoxically, the prison appears as a special place which filters the people’s morality and character.
